

Group 5: Receipt Notes

Mission

Make transactions easier to remember.

Let users attach vendor names and notes to each expense.

Required Features

Add at least these five features to your own copy of the budget tracker.

1. Add a vendor or shop name to an expense.
2. Add a short note that explains what the expense was for.
3. Edit the note for an existing transaction.
4. Search expenses by vendor name.
5. Show the vendors where the user spends the most money.

Stretch Ideas

- Add receipt number field.
- Group expenses by vendor.

Beginner Instructions

1. First make sure the base budget tracker runs.
2. Add one feature at a time.
3. After each feature, run ``python main.py``.
4. If the app breaks, undo only your last change and try again.
5. Prepare a short explanation of what each feature does.

Presentation Tip

Do not only show code. Show the menu, add sample data, run your new feature, and explain the part of the code your group changed.
